

Meet Origin, the modern financial wellness benefit for your workforce

Origin is a financial wellness benefit that combines cutting-edge technology with unlimited 1:1 financial guidance with Certified Financial Planners—helping employees make the most of their compensation, benefits, and personal finances.

Why financial wellness?

Talent is asking for this benefit: 93% of employees want their employer to offer access to financial planning and advisory services—but only 28% do.

Employees are confused and stressed over finances: Finances are the #1 source of employee stress, and financially-stressed employees are 2x more likely to leave their employer.

Limited access: Wealth management is geared towards high-net-worth individuals, and is out of reach to the average employee

Sources: The State of Employee Financial Health and Wealth, Origin, 2021; PWC 2021 Employee financial wellness survey

Explore Origin Features

How Origin works for your People team

Origin is a true partner to the people team at Udemy. Origin acts as the single place for our employees to manage anything with a dollar sign.”
Emily Duff | Manager, Global Benefits

Origin came up as a leading financial planning platform and has now been a reliable partner for almost a full year. We launched Origin to our team members in January 2020 and have seen immediate adoption.”
Laura Rondanin | Global Benefits & Perks Manager
